

## MACHINERY LIST

Laser engraving  
Processing  
Coatings

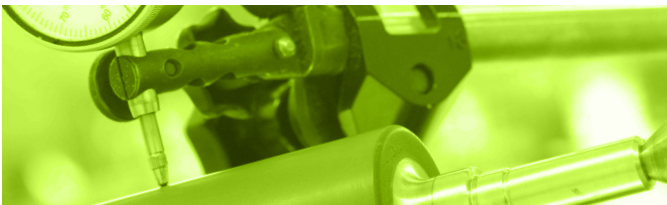

## LASER ENGRAVING

Possible diameters: 50 – 600 mm

Maximum length: 4500 mm

Line density: 20 – 600 l/cm

## PROCESSING

### Finishing, polishing, brushing

Possible diameters: 50 – 600 mm

Maximum length: 4000 mm

### Cylindrical lapping

Maximum length: 4000 mm

### Grinding/sanding, conventional

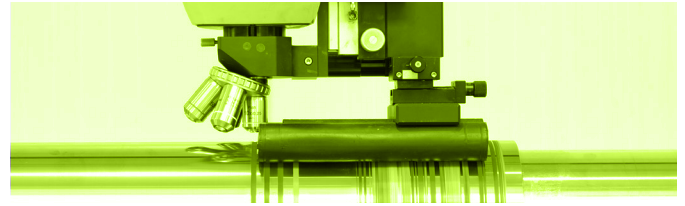

Maximum diameter: 500 mm

Maximum length: 2300 mm

### Grinding/sanding, computer-operated

Maximum diameter: 630 mm

Maximum length: 4000 mm

## COATINGS

### Equipment

Cabins with automated feeding and 6/7- axial industrial robots

### Process

Air Plasma spraying (APS)

High Velocity Oxygen Fuel spraying (HVOF)

### Component dimensions, round parts

Maximum diameter: 300 mm

Maximum length: 3500 mm

## CLEANING

### Ultrasound cleaning

Maximum diameter: 200 mm

Maximum body length: 1680 mm

### Laser cleaning

Maximum diameter: 600 mm

Maximum length: 4500 mm
